

## PRESS RELEASE: FEBRUARY 2023

Just launched:

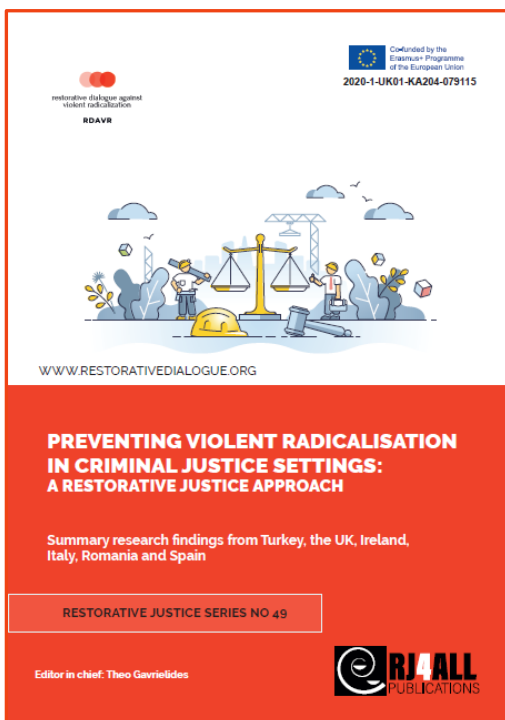

*E-BOOK Preventing Violent Radicalisation in criminal justice settings: A restorative justice approach - Summary research findings from Turkey, the UK, Ireland, Italy, Romania and Spain AND upcoming Multiplier Events!*

Restorative Justice for All International Institute (UK), and partners: Tuzla Halk Eğitimi Merkezi (Turkey), Sinergia Go2Europe (Italy), Casa Eslava Asociación (Spain), BOSEV Büyük Ortadoğu Sağlık ve Eğitim Vakfı (Turkey), Centrul Pentru Promovarea Invatarii Permanente (Romania), Instruction and Formation (IR) came up with the final Intellectual Output of the project; an E-book, bringing together all the research, methodology and pilot findings from the implementation of the Restorative Dialogue Against Violent Radicalisation (RD AVR) project in all the involved countries of the consortium [Grant Agreement 2020-1-UK01-KA204-079115].

### The E-book (IO3)

This comparative paper brings together all the research, pilots, learning and findings of the project into one e-book that integrates the theoretical and practical results of the programme including its pilots, training and on the ground learning from each participating country and Europe. It highlights the overall outcome as well as best practices and policy recommendations for those serving offenders, ex-offenders or people at risk of marginalisation and violent radicalisation/group offending.

The **RD AVR e-book** is the ultimate pride of the consortium since it is the first in the area, paving the way for Europe. The e-book reflects upon the project in its entirety and is its biggest legacy.

RD AVR has been running for more than two years and was put together to provide an **alternative positive policy approach** to preventing violent radicalisation and extremism **based on dialogue and Restorative Justice (RJ)**. The key objective of this E-book is to overview the **implementation** of RD AVR in all partners' countries, to identify the **emerged training needs** of criminal justice professionals in the field, to **compare and explore partners' approaches and piloting results** and to reflect on all the **evaluation conclusions**, coming up collectively with the **best practices** pinpointed in all countries.

Here you can download the eBOOK

## Multiplier Event in the UK - “Pro-social value systems: resilience, dialogue and trust-building”

On 14<sup>th</sup> February 2023, the **RDaVR Closing International Multiplier Event** in the UK will take place, marking the final phase of the project, focused on the planning and holding of Multiplier Events in all involved countries of the consortium.

The RDaVR Closing International Multiplier Event, entitled “**Pro-social value systems: resilience, dialogue and trust-building**”, is organised by Restorative Justice for All International Institute at the RJ4All Rotherhithe Community Centre, 30 Plough Way, London SE16 2LJ. This closing international event aims to bring together local and international participants in order to present the project activities, results and outcomes as well as the learning from the project itself, securing knowledge-sharing, networking and practical activities through interactive workshops.

The **RDaVR Closing Multiplier Event in the UK** is built upon an initial presentation of the project’s results and impact, entitled *Raising awareness about radicalisation & developing pro-social value systems*, and follow-up user-led workshops, with a focus on team building, maintaining trust, and strengthening resilience. The event is organised using the values of restorative justice such as dialogue and power sharing.

You can find more information about the Multiplier Event in the UK, here: <https://www.rj4all.info/RDaVR-event>

### Multiplier Events of the project

At this very final project phase and having completed all Intellectual Outputs, all Multiplier Events are the culmination of the dissemination, replication and sustainability efforts of the project and the consortium.

The main objectives are:

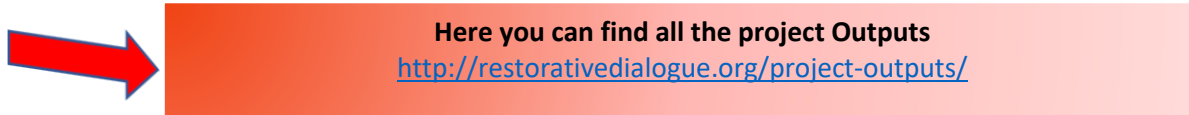

- to disseminate the results of the project and its outputs to key stakeholders nationally and EU-wide
- to support the project transferability and replication strategy by delivering the results of the project and showing 'what works'
- to engage potential new stakeholders, funders and users of the platform, programme and tools beyond the life of the project
- showcase the user-led methodology of the project and organise user-led workshops to present the technical aspects of the method to the delegates.

All the project outputs will be presented during the Multiplier Events:

- comparative and fieldwork **RESEARCH**;
- the **TRAINING HANDBOOK** “Restorative justice & Violent Radicalisation in criminal justice settings”;
- the **EVALUATION REPORT** of the **PILOT FACE-TO-FACE AND ONLINE TRAINING** implemented by the project partners;

- the **E-COURSE** “Preventing violent radicalisation in criminal justice settings: A Restorative Justice approach”;
- the **E-BOOK** “Preventing violent radicalisation in criminal justice settings: a restorative justice approach - Summary research findings from Turkey, the UK, Ireland, Italy, Romania and Spain”.
