The second transnational partners meeting

Bitonto, ITALY

On July 15th Sinergia hosted the meeting of project partners from North Macedonia, Turkey, Estonia, Slovakia and Spain, The focus of the project is the promotion of music education in school, through the valorization of folk music as a vehicle of knowledge and intercultural dialogue, and through the promotion of transversal skills related to the prevention of discrimination, bullying and disparity in education.

In this phase of the project, after completing the SWOT analysis on music education in the countries involved, we are working on the collection of educational materials related to popular music for the realization of a "Music Education Book".
