The second transnational learners mobility

On June 7th 2021 Catholic united school Nove Zamky organized the **5-days transnational mobility for learners** with participants from North Macedonia, Turkey, Estonia, Italy, Slovakia and Spain, as virtual mobility due to the Covid-19 pandemic restrictions.

The focus of the mobility has been the valorization of folk music and traditional drama as a vehicle of knowledge and intercultural dialogue, of prevention of discrimination, bullying and disparity in education.

In this mobility students had the opportunity to know more about **traditional music** in the involved countries, thanks to interactive learning activities. Basing on "Drama for kids" output they worked also on a **digital storytelling workshop based on traditional drama**.
