Therefore, the partners made a plan to support capacity building of organizations, institutions, teachers and educators, developing and sharing effective methods to reach young people and develop their intercultural competencies to prevent intolerance among young people.

The Escape rooms online platform were agreed for active learning immersive scenario games in the EU cultural heritage; The teachers involved in the mobility aim to promote among young people an intercultural dialogue that allows the spread of the values of respect, equality and democracy on which the European Union is based. This aim is necessary now more than ever and must be pursued in an innovative and effective way. .

Teachers agreed how to use of the Escape Rooms in order to achieve the desired outcomes of the project, including evaluations to be used in order to determine the progress of the activities and the exchange of necessary information, and among the participants, to ensure an intercultural exchange, which is the basis of the project and is necessary for the realization of the priorities of the project.

It was agreed that through the use of Educational Escape Rooms, tools that seek to innovate the current educational system, young people will be introduced to the history and culture of each country of the Union, allowing the development of a mentality of intercultural dialogue and the strengthening of knowledge and acceptance of diversity.
