Unconventional Community Networks
and Learning in support of
Marginalised Youth Integration

a project proposed by:

**FAMILY AND COUPLE THERAPY
ASSOCIATION
TIMISOARA
www.atfct.ro**

-E/I: MOTION -

Unconventional Community Networks and Learning
in Support for Marginalised Youth Integration

The project aims to develop, pilot and provide
services, training and support to:

1 The communities, in order to prepare their
actors to reintegrate ex/offenders/youth at
risk

2 The young ex/offenders/youth at risk and
their young peers in the community, so
that they are emotionally fit and enabled
for full reintegration.

We embrace an **ONTOLOGY** that sees individuals
HOLISTICALLY, so we designed the learning route
of the marginalised young people as concentric
circles, with emotional development as core
piece and other competencies around it: life
skills, transversal competences & employment
competences.

Also, we see individuals as situated in a context,
so we target all the layers of the marginalised
youth's environment, such as: detention
facilities, 'outside' communities, mainstream
schools, larger social and societal circles. We
involve, train and work with actors and
stakeholders active in all these layers.

The **EPISTEMOLOGY** we embrace is one
recognising that lifechanging, significant and
deep learning can happen in non-formal
/ informal settings (in this regards, it will be
organised a Forum Theatre stage, animal
assisted therapy stage, social cooperatives,
volunteering activities, peer support groups in
the community, professionals and para-
professionals training and community events).

We aim for excellency, for shaping a relevant and
impactful learning experience for youth, to
integrate sustainability factors in project,
therefore, the configuration of the **ACTIVITIES** is:

- developing of training and learning
programs, resources, kits and
documents,
- youth workers training,
- training of para-professionals as
in-community facilitators and interfaces,
- activities and events to open, enable
and prepare the community, including
legal proposal,
- engaging young people in therapy,
learning and integrative activities,
including employability and blended
mobility, finally,
- advancing European youth work and
cooperation in partnership.

The **MAIN RESULTS** are:

- 144 young people socialised and enabled for
successful integration,
- 68 youth workers trained to use alternative
pedagogies and to support integration of
youth at risk,
- 60 in-community paraprofessionals ready to
act in communities,
- 24 community and public events,
- a Systemic Dialectical Approach TRAINING
PROGRAMME,
- an Animal Aided Emotion Focused Therapy
GUIDEBOOK,
- an Anti-Bullying SUIT,
- a TOOLKIT regarding Learning, Networking
and Integration in the Community for Youth
at Risk.
